Check out our new

“Mini Me Bottomless Molds” !!!!!

These slumping molds range from 4 to 5 1/2 inches and will be sold as a mixed set of 3 for \$38.00. They will not be individually photographed and measured and will all be slightly different. (That is the only way I can sell them for this price!!) They make adorable little bowls always with a flat bottom!!!! Here is a photo from the first test that has got me so excited about these little gems. Great way to use up scrap or as a production item. These were fired from Coe 90 at the rate of 450 degrees an hour to 1300 with a hold of 15 minutes and they came out perfect!!

They are NOT on the website yet but I am taking orders that I will fill right out of the kiln. These are all hand thrown and bisqued to 1900. Add to other items from our website at <http://lauriespraywarmglasstools.blogspot.com/>

Just email us any order or questions to bkpottery@aol.com. When your order is filled we will bill you thru Paypal!!
